

# Drive less. Save more.

**Save more money.**  
**Breathe cleaner air.**  
**Spend less time driving.**

**Sun Rideshare**, a regional commuter assistance program, can help you with more than finding a carpool match. This free program for residents in Pima County also encourages finding ways to drive to and from work less often, such as working from home and encouraging the use of other alternative modes of getting to where you need to go. Using alternative forms of transportation such as walking or riding the bus is good for your bottom line and good for our region's air.

**Find practical ways to rethink old habits at [SunRideshare.org](http://SunRideshare.org).**

**TRANSIT** Learn more about fares, routes, schedules, park-and-ride lots, neighborhood shuttles, the downtown streetcar, and regular and express transit options.

**BIKING/WALKING** Learn more about biking in our region, which boasts more than 280 sunny days every year and a city-sponsored bikeshare program. Try biking to work one day a week or walking for your short-distance trips.

**VANPOOL** Discover how to lease commuter vans for six to 15 passengers for a low monthly cost. Vans are leased on a 30-day basis, and monthly subsidies may be available to you.

**FLEXIBLE WORK LOCATION/SCHEDULE** Learn about other ways to drive less. Telecommuting? Flexible hours? What does your company offer already, or what could you request in the way of a change?
