Grant/Program Description:

- 1) Administered by the Department of Commerce, DOE has issued funds under Energy Efficiency and Conservation Block Grants for the purposes of: 1. Increase energy efficiency to reduce

Public Housing Upgrades and Improvements, Continued...

energy costs and consumption for consumers, businesses and government; 2. Reduce reliance on imported energy; 3. Improve the reliability of electricity and fuel supply and the delivery of energy services; and 4. Reduce the impacts of energy production and use on the environment.

- 2) The Department of Energy, Weatherization Assistance Program is in place to reduce the burden of energy prices on the disadvantaged. The weatherization of homes includes adding more insulation, sealing of leaks, and modernizing heating and air conditioning equipment. It does also include clean energy sources like wind and solar.
- 3) Grants and loans will be made available through HUD's Office of Affordable Housing Preservation (OAHP) for eligible property owners to make energy and green retrofit investments in the property, to ensure the maintenance and preservation of the property, the continued operation and maintenance of energy efficiency technologies, and the timely expenditure of funds. Physical and financial analyses of the properties will be conducted to determine the size of each grant and loan. Incentives will be made available to participating owners. The terms of the grants or loans will include continued affordability agreements. Grant and loan funds must be spent by the receiving property owner within two years. Full detail of how to apply, and grant and loan terms, will be published in a Housing Notice within 60 days of the Recovery Act being signed into law (by April 17, 2009).
- 4) The Community Development Block Grant (CDBG) program enables local governments to undertake a wide range of activities intended to create suitable living environments, provide decent affordable housing and create economic opportunities, primarily for persons of low and moderate income. Up to 1.0 percent of each amount appropriated in this legislation may be used for the expenses of management and oversight of the programs, grants, and activities funded by such appropriations.
- 5) The Public Housing Capital Fund provides funds for the capital and management activities of Public Housing Agencies as authorized under Section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g), including the modernization and development of public housing. Under the Act, these funds are for capital and management activities such as the development, financing, and modernization of public housing projects, including the redesign, reconstruction, and reconfiguration of public housing sites and buildings (including accessibility improvements) and the development of mixed-finance projects. Funds cannot be used for operations or rental assistance. Competitive funds shall be awarded by competition for priority investments, including investments that leverage private sector funding or financing for renovations and energy conservation. Funds shall be obligated through competitive funding by September 30, 2009.
- 6) The Department of Energy, Weatherization Assistance Program is in place to reduce the burden of energy prices on the disadvantaged. The weatherization of homes includes adding more insulation, sealing of leaks, and modernizing heating and air conditioning equipment. It does also include clean energy sources like wind and solar.
