

Glossary of Terms

Bikeway

A generic term describing any type of facility that is specifically designated for bicycle use.

Bike Route

A facility that is designated by signing, and has no pavement striping.

Bike Lane

A facility that is designated by signing, and does have pavement striping.

Shared-Use Path

A path that is physically separate from any road or street, and which provides for only human powered use, including bicycles.

Shared Roadway

A road or street that is open to both bicycle and motor vehicle travel.

Definitions are based on the [Guide For the Development of Bicycle Facilities](#), American Association of State Highway and Transportation Officials, 1999
