State and federal gas taxes do not cover today’s transportation costs.

WHY?

Average in state and federal gas taxes paid for driving 1,000 miles in a new Honda Accord:

In 1992
you paid $27.30*

In 2018
you paid $11.03**

Loss in collections = $16.27 per 1,000 miles

To address this decline in transportation revenues, other funding solutions are needed.

*Cost with inflation adjustment
**Based on better fuel efficiency; gas tax does not adjust for inflation.
