

### Roadway and Transit Miles in bqAZ Scenario Pima

PAG has provided ADOT with its draft preferred scenario for bqAZ, called Scenario Pima, which includes over 900 miles of roadway improvements and almost 650 miles of transit improvements. The chart below shows a breakdown of the roadway and transit improvements included in draft Scenario Pima. As of November 2009, ADOT's proposed bqAZ scenario included all of the roadway and transit projects and services in PAG's Scenario Pima.

<b>bqAZ Scenario Pima</b>		
<b>Roadway Miles</b>		
<u>Roadway Category</u>	<u># of Projects</u>	<u>Sum Length (miles)*</u>
Widen/Upgrade Roadway	85	747.1
Conceptual New Roadway	39	173.5
Improved Roadway	2	24.1
		<b>944.7</b>
<b>Transit Miles</b>		
<u>Transit Category</u>	<u># of Projects</u>	<u>Sum Length (miles)</u>
Bus Rapid Transit (BRT)	5	70.8
Commuter Rail	3	78.3
Express Bus	3	49.9
Intercity Bus	5	338.1
Light Rail/Streetcar	7	51.2
Passenger Rail	2	61.5
		<b>649.7</b>

\*Length of corridor, NOT lane miles.
