

# Shrink Your Water Footprint

All numbers are measured in gallons of water used per person per day.

Take shorter showers • Turn off the water when you brush your teeth and shave • Fully load your washers

Repair leaky faucets + toilets or install low-flow fixtures, (toilets, sinks, showers)

Harvest rain water + gray water for irrigation • Drip irrigate from your cistern

Xeriscape your yard • Contour • Mulch

Don't Water From the Tap

Fix + Upgrade

Change Your Personal Water Habits

Look how many gallons you could save every day!
