**DISABILITY:** Data for this section cannot be displayed because the number of sample cases is too small. Displaying the data would risk disclosing information for individuals.

INDUSTRIES: From 2006-2008, for the employed population 16 years and older, the leading industries in Tucson were educational services, and health care, and social assistance, 23 percent, and arts, entertainment, and recreation, and accommodation, and food services, 13 percent.

OCCUPATIONS AND TYPE OF EMPLOYER: Among the most common occupations were: management, professional, and related occupations, 31 percent; sales and office occupations, 26 percent; service occupations, 22 percent; construction, extraction, maintenance and repair occupations, 12 percent; and production, transportation, and material moving occupations, 9 percent. Seventy-five percent of the people employed were private wage and salary workers; 18 percent were Federal, state, or local government workers; and 6 percent was self-employed.
TRAVEL TO WORK: Seventy-two percent of Tucson workers drove to work alone in 2006-2008, 12 percent carpooled, 4 percent took public transportation, and 8 percent used other means. The remaining 4 percent worked at home. Of those who commuted to work, it took them on average 21.9 minutes to get to work.

INCOME: The median income of households in Tucson was $37,936. Seventy-nine percent of the households received earnings and 17 percent received retirement income other than Social Security. Twenty-seven percent of the households received Social Security. The average income from Social Security was $13,625. These income sources are not mutually exclusive; that is, some households received income from more than one source.

POVERTY AND PARTICIPATION IN GOVERNMENT PROGRAMS: From 2006-2008, 20 percent of people were in poverty. Twenty-seven percent of related children under 18 were below the poverty level, compared with 12 percent of people 65 years old and over. Fourteen percent of all families and 29 percent of families with a female householder and no husband present had incomes below the poverty level.

POPULATION: From 2006-2008, Tucson had a total population of 532,000 - 269,000 (50 percent) females and 264,000 (50 percent) males. The median age was 33.2 years. Twenty-four percent of the population was under 18 years and 12 percent was 65 years and older.
For people reporting one race alone, 69 percent were White; 4 percent were Black or African American; 3 percent were American Indian and Alaska Native; 3 percent were Asian; less than 0.5 percent were Native Hawaiian and Other Pacific Islander, and 18 percent were of some other race. Three percent reported being of two or more races. Forty percent of the people in Tucson were Hispanic. Fifty percent of the people in Tucson were White non-Hispanic. People of Hispanic origin may be of any race.

**HOUSING CHARACTERISTICS:** In 2006-2008, Tucson had a total of 225,000 housing units, 11 percent of which were vacant. Of the total housing units, 60 percent were in single-unit structures, 33 percent were in multi-unit structures, and 7 percent were mobile homes. Twenty-three percent of the housing units were built since 1990.
