

Worker Commute Patterns

Together, the Downtown District and Midtown District accounted for more than 50% of the total jobs in the region in 2000.

These maps illustrate the pattern and number of workers commuting to the Downtown and Midtown districts from elsewhere in the Tucson region.

More than 70% of the people working in the Downtown District commuted from another district, while more than 65% of the people working in the Midtown District commuted from another district.
