Three Choices

You will have three options to complete your 2020 Census form:

- **Online at 2020Census.gov**
  (Even on mobile devices)
- **Phone**
- **Mail**

The process is **easy, secure, confidential and important.**

Participation is required

Every home should receive information to access the census form starting in mid-March 2020. Here’s why your participation is important:

- Census data determine how more than $675 billion in public funds are distributed to states and communities each year to support essential state and local programs. **For each person counted, states/communities receive nearly $2,000 per year, or $20,000 per decade.**
- Census data help businesses, researchers and communities make important decisions that affect new business development, job creation, new roads and funding for school lunches.
- State officials use census data to redraw the boundaries of their congressional districts.
- The results determine how many seats each state gets in the U.S. House of Representatives.

Please complete your form soon. Census Day is APRIL 1, 2020.
